

# DelVecchio's Bike Winterizing Checklist:

- 👉 \_\_\_ Change oil (not filter)
- 👉 \_\_\_ Fill gas tank and put correct amount of Sta-Bil in tank (read package)
  - 👉 Slosh around gas/Sta-Bil mix
  - 👉 Run bike for about 5 minutes to get Sta-Bil in parts
- 👉 \_\_\_ Wash Bike, add spray wax (i.e. Spectro Spray Wash) if desired
- 👉 \_\_\_ Roll tires on plywood to get off concrete
- 👉 \_\_\_ Duct tape over muffler hole (keeps moisture and critters out)
- 👉 \_\_\_ Put mouse traps along adjacent walls (keeps from nests under your seat!)
- 👉 \_\_\_ Cover bike with breathable cover (Walmart \$20)
- 👉 \_\_\_ \_\_\_ \_\_\_ Charge battery several times over winter to keep fresh

Next:

- 👉 Read motorcycle magazines/books, find support groups (Internet, other riders), and plan next season's rides!
- 👉 If you get a nice day, ride the bike! Just be sure to treat gas again!
